

the quality of life for current and future generations.

The ICCD and its dedicated employees and volunteers use education, technical assistance, and partnerships with local businesses to work toward a prosperous sustainable future.

Today, the ICCD implements a wide variety of projects dealing with agricultural land preservation, environmental education, and wildlife management. All these efforts have helped to teach the importance of conservation to residents of all ages in Indiana County.

The ICCD formally celebrated their 75th anniversary on October 7 with an open house at their headquarters in Indiana, Pennsylvania.

Madam Speaker, please join me in congratulating the Indiana County Conservation District on 75 years of protecting the environment and ensuring that Indiana County continues to be a great place to live.

HONORING TRANSGENDER AWARENESS WEEK

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Virginia (Ms. WEXTON) for 5 minutes.

Ms. WEXTON. Madam Speaker, I rise today in honor of Transgender Awareness Week.

Each and every day, our trans friends and neighbors fight to make their voices heard, to demand their basic human rights, and to live free from increasing dehumanizing and hateful attacks. Their spirit and fight deserve to be celebrated this week and every week.

Madam Speaker, we stand with the trans community and join their fight to live openly and authentically without fear of discrimination. We also must not ignore the horrific violence targeting the trans community.

Sunday marks Transgender Day of Remembrance as we honor the at least 32 transgender or gender-nonconforming Americans who have been killed this year and commit to doing all in our power to end this bigoted violence.

As co-chair of the LGBTQ+ Equality Caucus' Transgender Equality Task Force, I will never stop working to uplift the voices and visibility of trans Americans and shine the light on injustices this community faces.

To my friends in the trans community, I want to let you know that you are seen, you are heard, and you have allies here in Congress.

REOPEN THE CAPITOL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Arkansas (Mr. CRAWFORD) for 5 minutes.

Mr. CRAWFORD. Madam Speaker, today, I am here to talk about reopening the very building in which we stand, the United States Capitol.

It has been 2½ years since Speaker PELOSI closed the people's House and told Americans it was part of our united effort to stop COVID-19. Over the last year, we have seen a sharp decline in hospitalizations and deaths from COVID. In fact, just 2 months ago, President Biden even declared the pandemic was over. Yet, certain protocols remain from the height of the pandemic.

Today, when constituents come to visit my office, they need to be personally escorted around by staff. They have to be a small group. They can't go to the House gallery to watch votes take place, and my staff is only allowed to give a tour once a week.

If the Speaker is really trying to prevent the spread of COVID, why is she forcing people to gather in large crowds around security checkpoints?

This is the people's House, yet we continue to deny access to the people, the very people who elected us to serve them, the very people whose taxes fund our operations.

Because of these regulations, I have had to turn several of my constituents away. Not only do these regulations make it difficult to welcome every group into my office, but it also affects the function of all House offices.

I have multiple visitors a day, and each time they come in, I have to send one of my staffers to find that visitor in a crowd of people, wait in a long security line, and then escort them through the House office buildings. It is inefficient and takes staff away from the valuable work they should be doing on behalf of the people of Arkansas.

To top it all off, none of this makes any sense. Why does one of my staffers need to escort someone who has already been cleared by security into the building? How does this protect against COVID-19? What is so dangerous about allowing visitors the ability to watch their government function? How can we claim to be a transparent government when we prohibit access to their elected officials?

It is far past time to truly open up the Capitol to the people and restore its operation to prepandemic times. We cannot afford to keep distance between the American people and their elected Representatives.

These regulations prevent constituents from freely visiting their Representatives and hinder productivity in our offices, and none of it makes us any safer.

The people are an important part of the legislative process. In fact, they are the reason for it. Madam Speaker, they should be welcomed here.

INVESTING IN ZERO-EMISSION SHIPPING TECHNOLOGIES

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Ms. BARRAGÁN) for 5 minutes.

Ms. BARRAGÁN. Madam Speaker, it was an honor to join Speaker PELOSI

with the congressional delegation to Egypt to the United Nations' annual climate conference, COP27.

Our bottom-line message to world leaders: America is all in to fight the climate crisis. We stand with our global partners to reduce emissions, go green, and meet our goals under the Paris climate agreement.

Shipping emissions is one of the largest emitters of greenhouse gases in the world. Congress has acted with the Inflation Reduction Act. Record climate investments are included in the IRA to accelerate our transition to a clean energy future. That includes a \$3 billion investment from my bill, the Climate Smart Ports Act, to reduce emissions from ports across the country.

As someone who represents the Port of Los Angeles, I know firsthand the work we must do to go zero emissions and commit with other countries to reduce shipping emissions through the Green Shipping Challenge.

To get there at the speed and scale necessary, it is critical that Congress invest in zero-emission shipping technologies and provide the EPA with the resources to regulate emissions from ships.

Working together, we can exceed our 2030 emissions reduction target and take collective action to save our planet.

RECOGNIZING NATIONAL ALZHEIMER'S DISEASE AWARENESS MONTH

Ms. BARRAGÁN. Madam Speaker, I rise today in recognition of National Alzheimer's Disease Awareness Month. During this month, we honor the millions of Americans living with Alzheimer's, including my mom, along with selfless family members and caregivers.

The nearly 6 million people with Alzheimer's are our sisters, our brothers, our parents, our grandparents, our neighbors, and our fellow Americans.

This epidemic will only continue to grow. In the next 30 years, the number of Americans with Alzheimer's is expected to reach nearly 14 million.

Fortunately, we are at an inflection point in scientific progress where life-changing treatments may become available, but they also need to be affordable, and we need to continue to invest in research.

That is why I am introducing a bill this month to improve access to new, innovative Alzheimer's treatments that become available. I will continue to work with CMS to ensure all drugs receive fair and accurate consideration for Medicare coverage.

Our fight against this heartbreaking disease is nowhere near done.

SUPPORTING NATIONAL FAMILY CAREGIVERS MONTH

Ms. BARRAGÁN. Madam Speaker, I rise today in recognition of National Family Caregivers Month. Today, more than one in five Americans provide care to someone with health or functional needs.

Caregivers are the backbone of our families and communities. They are
